## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: the specification should indicate the status of the parent application as abandoned.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 40 and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Migliozi (4,081,139).

Regarding claim 40, Migliozi discloses a soap dispenser comprising: a retaining means 50, 44, 20 for supporting solid soap; attaching means 18; a pivot 22; a handle 34.

Regarding claim 41, Migliozi discloses a soap dispenser comprising: a retaining means 50, 44 for supporting solid soap; attaching means 18, 20; a handle 34.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 42 is rejected under 35 U.S.C. 103(a) as being unpatentable over Migliozi (4,081,139) in view of Moss (2,647,797).

Migliozi discloses the limitations of the claimed invention with the exception of the cylindrical soap and the body having a post. Moss discloses a cylindrical soap 35 and body 21 having a post 28. It would have been obvious to a person having ordinary skill in the art at the time of the invention to have replaced the body 50 of Migliozi with the body of Moss to dispense scented substance, a water softener, a medicated substance (Moss, col. 1, lines 3-10).
